Joan,

This is the best I could do for this one. I can only answer part 1 of the request, as obviously part 2 has nothing to do with the CFR.

I had to go well outside the Registry to get it answered, as the Firearms Program covers a lot of ground. Many of the people who were once listed as part of the RCMP program are now under the DOJ, so the numbers have changed drastically since this time last year. The numbers had to be extracted from various levels and put together into one sheet, as there is nothing that directly answers the question.

Please have a look at the file that is attached, and if you have any issue about its completeness, please let me know.

Chris
